

“Wiggles and Giggles!” Campaign

Toddlers need to move their
bodies to help their brains learn!

*Help our toddlers get their wiggles
out and make giggles happen!*

Goal: \$15,000

Spring is here! Sometimes we get bright blue skies and warm weather days, but sometimes we get cold and rainy days. Our Kellogg Child & Family Program Team embraces the benefits of play, especially outdoor play! We play and learn outside as much as possible during all seasons of the year, however, there are many Wisconsin weather days when we cannot be outside. Inside play activities are currently limited, resulting in less opportunities for toddlers to develop sensory-integration skills and increase focus.

We hope you can help us create an indoor version of the outside play for our toddlers to **wiggle and giggle** their way to better language and communication!

We hope to raise **\$15,000** to make this happen!

Here's a sneak peek of plans for our indoor Gross-Motor Room!

"Baird Gives Back" volunteers will help us paint the Gross-Motor Room. They will also clean our outdoor playground and spruce up our property!

The room's walls will be painted, including this mural. Padded carpet will also be installed.

Wooden indoor climbing set

Wobble disk and climbing dome

Wood balance beam

Step and balance sensory stones

And more!

With your support, we will also update our outdoor playground!

We need to replace our broken fence gate and the 20 year old umbrella.

Outdoor climbing dome

Our Challenge:

- Cold, snowy or rainy days
- Restless toddlers
- Lack of focus
- Sensory Integration challenges - children with hearing loss are at a higher risk

Your gift will help:

- Create indoor version of outside playground
- Increase toddlers' gross motor skill development
- Promote wiggles and giggles for more focus especially for learning language and communication!
